REPORT OF FINANCE COMMITTEE

The Dunbarton Finance Committee was established on a continuing basis under Article 25 of the 1958 town meeting warrant, with three positions to be filled by the Moderator each year. The committee has held eight meetings with an average attendance of 7 or 8 members.

Two meetings were held with the Selectmen and one with the School Board, primarily to review finances and budgets. A meeting was held with the Planning Board to discuss plans that might affect the future financial situation of the town.

The committee reviewed the school budget for 1959-60, and recommended certain reductions, totaling approximately $1,235. The School Board accepted all but one minor recommendation of $50.

The committee reviewed the town budget for 1959 and recommended to the Selectmen reductions of $1,010.00 and some changes in listing last year's expenses. Unfortunately, the budget was not presented to the committee until just before the Town Report went to press.

The committee also recommends that:

(a) In future town budgets, new road construction, other than TRA, be shown as a separate item.

(b) The Selectmen explore before the 1960 town meeting the possibility of having a common custodian for the town hall and the school.

(c) Unless the town votes this year for a central heating system in the town hall, it is imperative that the chimney be repaired, to eliminate the fire hazard, as voted at the 1958 town meeting.

On the recommendation of the previous Finance Committee, the town set aside $1,000 in a Capital Reserve Trust Fund for town equipment in 1958. The 1959 budgets allows for another $1,000 addition to this fund.

The committee recommends that a similar Capital Reserve Trust Fund for a new fire house be set up at the 1959 town meeting.

The committee extends its thanks to the members of all boards that worked with our committee during the past year.

Respectfully submitted,

JOHN E. BUNTEN RICHARD I. HAMMOND

REPORT OF POLICE DEPARTMENT

1958

During the past year the Police Department has received essentially the usual number of complaints, among which have been breaking and entering, petty larceny, damage by dogs, suspicious persons, cars abandoned, and missing persons, all these cases having been investigated by the department.

A large per cent of the activities of the Police Department is centered about traffic violations. The greater number of offenders are speeders. The posted speed on Route No. 13 through Page's Corner is 35 mph and Dunbarton village is limited to 25 mph. The traffic is quite heavy in the morning and early evening on week days as many commuters pass through town on their way to work and returning home. Many have no regard for the regulations concerning speed and, despite the school warnings posted in the village, proceed through at a high rate of speed. The department is doing

all it can to slow the violators. When one is observed, the offender is stopped and a warning issued. If a complaint is made and a registration number supplied, the party responsible for the violation is contacted and warned that a second offense will mean a court appearance.

Other sections of the town also have traffic violators. Residents have complained of speeds in East and South Dunbarton where there is now a large area of black top road. When complaints have been made, the roads have been patrolled as much as possible.

Weekends and holidays also bring heavy traffic through the town. In the past year over two hundred warnings have been issued for speed, improper operation, stop sign violation, defective equipment, driving after drinking, passing school bus, and other offenses.

If any person or organization has any ideas or suggestions for the protection of persons or property, the Police Department would welcome the opportunity to discuss them.

In closing, we wish to thank the members of the Dunbarton Volunteer Fire Departmeent and the residents who responded to our request for help in locating a lost child last summer.

WILFRED H. MARSHALL, *Chief*
The Dunbarton Police Department

DUNBARTON VOLUNTEER FIRE DEPARTMENT, INC.

1958

The Fire Department has experienced a very busy year. This was due not only to a good demand for its services but a large number of projects started and completed.

There were 23 calls for our assistance during 1958. These calls were for fire protection, overturned vehicles, lost people, pumping water for cattle due to power failure, downed power lines and precautionary burning at town dump. There were only 2 fires which caused any large amount of loss. One of these was partially insured.

A new power oil burner has been installed in the Fire House. This is of a type approved for a garage occupancy and replaces a pot oil burner which is a hazard when left unattended and also not approved.

Alterations to the system for alerting of firemen were made, however, these were minor. A 1/3 H. P. Siren has been mounted above the Firehouse for alerting men near the fire hous. This is tested at 12:30 Sunday noon. We also appreciate the total cooperation of the Dunbarton Telephone Co. and employees.

The Movie Projector Fund has been completed with the financial assistance of several social organizations in town. The projector was purchased and put in service in June. A new fund has been started for a resuscitator for use on drownings, heat attacks, etc. The cost of this item is approximately $550.00.

Fund raising this year proved very successful. This started with a Chicken Barbecue on June 29th. A Baked Bean Supper

proved successful on December 6th. These two events could not have been a success without the great effort put forth by the fire fighters and the wonderful support of all town people.

Considerable money was spent from our private fund to purchase various items we need. I shall submit a partial list: 1/3 H. P. Siren, 20 lbs. Dry Powder Extinguisher and truck bracket, 1 - 2½" x 1½" reducer, 10 - 1½" spanners, 1 - 1½" Double male coupling and female couplings, 7 Fire Helmets, 4 Fire Coats, 200′ manila rope and 2 - 1½" running board brackets. Proceedings have started to purchase 2 Scott Air Pak. This has been handled by the Civil Defense Director, C. Allen Fuller, Jr. These 2 units cost $275 each.

This private fund I speak of is money raised by pumping wells, burning grass, operating barbecues and suppers, dues of our members and direct donations to the department.

On July 31st, 1958, as chief of this department I was asked to be a member of a committee to draw up a constitution and by-laws of a proposed Federation of Fire Mutual Aid Associations. The reason for this was due to a desire to have a member on this committee who has no written Mutual Aid Agreements. After several meetings a proposal was brought into an open meeting and after slight alterations was accepted. Currently I enjoy a five year term on the executive committee. This organization appears to have strength with more than 50% of N. H. towns and cities represented. They are checking into the Fire Insurance rating bureau for some way to obtain lower rates for communities with some protection but not exactly what the present bureau standards demand.

I wish to thank everyone for cooperating with the fire department this past year. The Police Department's handling of traffic at fires has been greatly appreciated also.

JOHN R. SWINDLEHURST,
Chief of the Dunbarton Volunteer Fire Department, Inc.

EARL HADLEY,

CLARENCE E. LEACH,

Auditors.

Dunbarton, N. H., February 24, 1959.

To the Selectmen:

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose locally in preventing fires. May we respectfully request publication on the following in your town report.

Sincerely,

THOS. J. KING,
District Fire Chief.

YOU CAN HELP PREVENT FOREST FIRES

Twenty-five per cent of all forest fires in New Hampshire are caused from careless debris burning — brush, paper, leaves grass, etc. Most of them are started without the required permit from the local forest fire warden. The cost of extinguishing these fires annually runs into large sums of money.

According to law, responsible parties must pay the cost of putting them out. In addition, violators may be subject to court prosecution with fines running as high as ($200) two-hundred dollars.

In the interest of fire prevention why not eliminate burning at home? Use your town dump. It has been set up for your personal convenience. It provides a suitable place for the disposal of dangerous inflammable waste material and other useless items which accumulate around the home and local stores; brush, etc., cut on your property. Eliminate the hazard of burning yourself. It will be easier for you — personally and financially.

If, however, you do burn on your premises:

1. Secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning. Don't leave it.
3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty.

Use your town dump.

Number of local fires	1
Number of acres burned	none
Number of permits issued	33

The one local fire was caused by an unauthorized and unattended bonfire which spread to the Hearse House causing destruction of both House and Hearse.

THOS. J. KING,
District Fire Chief.

DONALD MONTMOMERY,
Forest Fire Warden.

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Dunbarton:

It is with pleasure that I submit my first annual report.

Elementary enrollment has remained fairly constant during the past several years. This fall a single additional pupil was enrolled, making a total of 95. In addition, there were 30 tuition students in the high schools of Concord, Goffstown and Manchester.

Statistical tables published in former town reports indicate that many classes have been in excess of the optimum number of 25 students. This continues to be the rule rather than the exception. These classes in turn are divided into 2-4 grades. It may be readily understood that any individual teacher can spend a limited time with any one child under these circumstances. The size of the class is not the problem; it is the fact that even the most competent teachers cannot handle combined grades effectively.

It is a tribute to the zeal and devoted efforts of the teachers in Dunbarton, considering the difficult teaching situation, that the results of some pupils' efficiency has measured favorably with a nationally standardized achievement test over the period of the past few years. This fact is more noteworthy since there has been a change of three teachers in the Center School during the past five years. However, in order not to be lulled into complacency by a few test results, it should be realized that this picture is not universal and that many of our children have not attained the desired grade achievement level under the existing situation. It will be more apparent as the latter group progresses through the grades and as the en-

rollment increases their individual difficulties will also increase.

Dunbarton has a problem of mixed grades, a situation not conducive to good education. I recommend that the situation be studied and that a favorable solution be found.

In order to have good schools, we need good teachers. In order to attract good teachers we need adequate salaries, proper instructional tools and equipment, and a good, sound and practical curriculum. This past half year has seen much progress in the acquisition of learning tools, but there are still many needed items which are represented in the new budget. The curriculum is being studied and evaluated on a Union basis and it is hoped that by the end of next year a printed curriculum guide in all grades and subjects can be placed in every teachers' hands as a guide to more effective teaching.

Many previous superintendent reports have repeatedly noted the inadequacy of local teachers' salaries and have stressed that Dunbarton has been fortunate in having good teachers. With the demand for teachers greater than the supply, and recent college graduates selecting single grade assignments, districts maintaining 2, 3 or 4 grade situations will find it difficult to attract competent teachers. This is neither fair not just for our children, but it is the existing situation.

In order to give our children the type of school which we think is educationally good and also one that we can afford, your superintendent suggests that a careful study be made of our future enrollments and town growth and that consideration be given to factors which could decrease the number of grades which our teachers now have to handle. Also in connection with this study I would suggest that the most serious attention be given to a study of teacher salaries. As undesirable and unacceptable as it may be, the cost of teacher re-

placement is a determining factor in any salary study. A comparison between this year's average salary paid to New Hampshire elementary teachers and Dunbarton's shows that our average salary is $514 lower than state average.

This discussion is not an attempt to support teacher salary increases. It is an objective presentation of some of the problems that the citizens of Dunbarton should consider if the local school is to best serve the needs of our children.

May I take this opportunity to thank the School Board and citizens of Dunbarton for their cooperation, and I hope that we will merit your continued interest, cooperation and support in the future.

Respectfully submitted,

CHARLES H. MINNICH,
Superintendent of Schools
